

### Woodstok srl - Synthetic Porcedure

1. After SCO issued from Seller, Buyer issues ICPO and CP
2. Seller issues Pro forma invoice and Contract
3. Buyer signs and returns to Seller and both deposit the C.I. and the Contract in the respective banks, authorizing the bankers to transfer POP (contains fresh Q/Q SGS) and POF in real time via swift. Once received POP and POF, the procedure will continue with full verification of the documents exchanged between the parties.
  - 3.1. Seller provides the following documents to Buyer:
    - SGS - (Not later than 72 hours) in the Seller's tank at Rotterdam port.
  - 3.2. Buyer provides the following documents to Seller:
    - Financial capacity letter with DLC or SBDLC or MT103/72 conditioned, (Seller's choice).
    - TSR and GPS coordinates of the tank in Rotterdam where to inject the product
4. After all verification, Seller injects the product to Buyer's tanks within 72hours, and at final positive verification by SGS Q/Q in Buyer's tank, Buyer issues payment for the product with MT103 or raises the MT103 payment condition already executed, receiving the product ownership at the same time.
